

PROFILE

Strategist and researcher focused on how governments adopt AI. Works at the nexus of technical implementation, public policy, and philanthropy to design, evaluate, and scale AI systems that strengthen public institutions.

EDUCATION

Georgetown University, School of Foreign Service | Washington, D.C., U.S.A. | GPA: 3.89

- Major: Science, Technology, & International Affairs | Concentration: Technology & Security | Minor: Biology

King's College London | London, U.K.

PROFESSIONAL EXPERIENCE

Wadhvani AI Global | New Delhi, India | Fellow

2025 – Present

- Leading strategic planning for Wadhvani AI Global's expansion in Latin America, shaping regional partnership strategy and coordinating cross-functional teams to support AI deployments in education, maternal health, and public health.
- Building partnerships with governments, multilaterals, and philanthropies to identify, scope, and launch public-sector AI deployments across health, education, agriculture, and digital transformation.
- Co-authoring technical publications on AI deployment and evaluation, including a benchmarking framework and model card for assessing AI systems in low-resource settings beyond traditional performance benchmarks.
- Producing policy analyses and thought leadership on AI governance, digital public infrastructure, and public-sector AI adoption in collaboration with researchers, journalists, and international partners.

Mori Swasthya Foundation | Kharsadi, Uttarakhand | Core Strategy Team

2026 – Present

- Shaping long-term strategy for a community health nonprofit delivering primary, maternal, and preventive healthcare.
- Overseeing the foundation's digital health systems, aligning technology development with frontline clinical workflows.
- Leading strategic planning for public-private partnerships, government engagement, and organizational sustainability to support the organization's transition toward locally led, government-integrated primary healthcare.

MetaDocencia | Buenos Aires, Argentina | Contributor

2026 – Present

- Co-designing strategy and fundraising for a multi-country initiative exploring how the AI moment can strengthen scientific institutions, open science, and public trust across Latin America.

Freedman Consulting, LLC | Washington, D.C., U.S.A. | Senior Associate

2022 | 2024 – 2025

- Advised leading U.S. philanthropies on science, technology, and AI strategy, coordinating more than \$60M in investments over three months to strengthen the U.S. science and technology ecosystem.
- Led research and ecosystem analyses on AI governance, emerging technologies, and national security to inform philanthropic investment strategies and policy priorities.
- Convened 100+ funders, researchers, and policy leaders to shape collaborative funding strategies and engagement with national and international science and technology initiatives.

Center for Global Health, Science, and Security | Washington D.C.; Mumbai | Research Affiliate

2022 – 2024

- Designed and executed an independent qualitative research project using elite interviews and policy analysis to examine the political economy of India's pharmaceutical sector and its role in global health governance.
